

DailyBuzz - Test Results

Test Date: September 9, 2025
App Version: 1.0
Test Environment: Android Emulator (API 34)

Feature Tested	Steps to Test	Expected Result	Actual Result
Initial Data Sync	1. Clear app data and launch the app with an active internet connection.	The app fetches the latest articles from Firestore, saves them to the local Room database, and displays them in the 'All News' tab.	Pass
Offline Mode Verification	1. Launch the app with internet. 2. Close the app. 3. Disable Wi-Fi and mobile data. 4. Relaunch the app.	The app launches without crashing and displays the previously loaded articles from the Room database, demonstrating offline capability.	Pass
Save Article Feature	1. In the 'All News' tab, tap the bookmark icon on an article.	The icon changes to a 'filled' state. The article now appears in the 'Saved Articles' tab.	Pass
Unsave Article Feature	1. Go to the 'Saved Articles' tab. 2. Tap the 'filled' bookmark icon on a saved article.	The icon changes back to an 'outline'. The article is removed from the 'Saved Articles' tab but remains in the 'All News' tab.	Pass
Data Persistence	1. Save a few articles. 2. Close and restart the app completely (with or without internet).	The previously saved articles are still present in the 'Saved Articles' tab.	Pass
